

Dear Branch Secretary

In writing to you I am asking for your branch to consider nominating and supporting me for the NEC and the T&FSE elections.

As some of you know I have going a round to the RDA's presenting (with Remploy) the new ENABLE service that BT provides people with not only disabilities, but also impairment's.

The reason behind presenting to the RDA's was to get the issue of disabilities into the main core of the CWU agenda, also because it is the lead officers, like you, in the branches that mainly have to deal with the issues people face. I firmly believe, having played a major part in formulating the policy and negotiating with BT, that I am best placed to keep the issue moving forward both within BT and the CWU. Also I believe the only significant thing to come out of the project Holborn discussions so far is the improvement of the MCC and it was me that negotiated that policy on behalf of the Union. I believe that I am the best person to keep the improvement in the disability area moving forward within the Telecoms sector. I would also like to take this knowledge and understanding forward across the whole union and believe by being a member of the NEC I will be best placed to do so.

Yours sincerely
